

**Throwing Sticks
Can Kill Your Dog**
www.stick-to-toys.com

Each year many many dogs are killed or injured by sticks that are thrown for them by their owners. A fatal injury only happens once, but once is enough if it's your dog. You can't turn the clock back.

This website contains case histories from many dog owners who wish they could turn the clock back and throw a safe toy for their dogs instead of a stick. Check it out, and "for dog's sake, stick to toys!"
